WINTER HARDY TAXUS MEDIA #8

(Hatfield Introduction) Most dark green, glossy, compact Media. Grows 2 times faster than Taxus Browni Withstands freezing, wet soil, heat conditions. Grown as dwarf compact spreader, globe, or sheared as upright.

TAXUS MEDIA COMPACTA (T. DENISFORMIS, Same)

(Hatfield Introduction) Almost identical to Taxus Media #8. A little faster growing and heavier branching. Both varieties retain thick dark green needle foliage in oldest plants. Both varieties fastest growing money makers.

TAXUS CAPITATA FASTIGATA

(Grown in Ohio for over 30 years) Dark green Capitata selection. Vigorous roots, makes bushy compact plant even when small. Transplants well and 30-year-old plants retain compact thick, Media foliated bottom branches.

TAXUS CAPITATA - ADAMS COLUMNERIS

Dark green. Very rapid grower. One of hardiest varieties. With shearing makes handsome specimen or can be used for hedge or screen. Excellent root system. One of best Capitata varieties.

WINTER HARDY KOREAN BOXWOOD

Absolutely hardy. Glossy apple green foliage summer; bronze redish gold tinged foliage winter. Grown as compact globe or spreader, fine for planter boxes. Grows best in peat, sawdust or humus. Fertilize well.

WINTER HARDY EUONYMUS SARCOXIE

(Wild Bros. Introduction) Glossy, blue-green foliage, persists until new growth starts in spring. Ilex Rotundifolia growth habit. Grown as globe, spreader, sheared pyramid, espalier on walls or vine. Very vigorous, rapid non-woody growth, transplants well. One of the best money makers.
